

1st Announcement and Call for Papers

18th Annual PQSynergy™ International Conference and Exhibition 2018

May 7th - 9th, 2018, Bangkok, Thailand (Hotel to be Determined)

Introduction

Welcome to the 18th Annual PQSynergy™ International Conference and Exhibition which will be held from May 7th - 9th, 2018, Bangkok, Thailand.

For 18 years, this conference has been recognized as an international forum to share experiences, information, requirements, problems and solutions on the state of the art for Power Quality, Energy Efficiency and Smart Grid.

PQSynergy™ is an excellent networking opportunity in an informal atmosphere with presentations from around the world.

- ◆ Utilities will share their experiences in the area of power quality.
- ◆ Large power users will share their present and future expectations for power quality.
- ◆ Equipment suppliers will share their overall market perspective and their specific solutions for power quality problems.

Conference Schedule:

- ◆ **Registration:** Until April 20th, 2018
- ◆ **Abstract Submission:** Until April 25th, 2018
- ◆ **Notification of Acceptance:** Until April 27th, 2018
- ◆ **Final Full Paper Submission:** Until April 30th, 2018

Conference Program:

- ◆ **Monday, May 7th:** Power Quality
- ◆ **Tuesday, May 8th:** Energy Efficiency
- ◆ **Wednesday, May 9th:** Smart Grid & Half Day Tour

Program Focus

Day 1: Power Quality

- ◆ Focus on new sources of PQ data for distribution networks (Smart meters with PQ, Low Voltage transformer monitoring, substation monitoring) and IEC61850 & digital relays

Day 2: Energy Efficiency

- ◆ Focus on energy losses in the electrical distribution network, energy conservations and technologies, solutions, renewable generation (solar, wind, biofuels) and the impact on electricity supply

Day 3: Smart Grid & Half Day Tour

- ◆ Focus on smart grid and half day tour

Scope of Papers

Power Quality Monitoring and Solutions

- ◆ Harmonics and Filtering
- ◆ Power Conditioning Methods
- ◆ PQ Case Studies from Industry
- ◆ Power Quality Instrumentation
- ◆ Surge Suppression Technologies
- ◆ Voltage Sag Mitigation Technology
- ◆ Voltage Stability
- ◆ Power Quality through Renewable Generation
- ◆ IEC 61850 and Digital Relays

Energy Conservation and Management

- ◆ Energy Management Systems
- ◆ Energy Saving Devices or Systems
- ◆ Site Energy Audits and Analysis
- ◆ Batteries and Battery Systems
- ◆ Superconducting Magnetic Storage
- ◆ Flywheels (high/low speed)
- ◆ Ultra/Super Capacitors
- ◆ Inverter Technology for Solar Plant
- ◆ Improving Energy Efficiency

Smart Grid

- ◆ Renewable Generation, Solar and Wind Power
- ◆ Distributed Regulation
- ◆ Distributed Generation
- ◆ Intelligent Electronic Devices
- ◆ Grid Sensors
- ◆ Integration of Data from Multiple Sources
- ◆ Networking, Communications and IT
- ◆ The Impact of the Integration of Green Power Sources
- ◆ The Impact of Smart Grid Technologies on Power Quality

Compatibility & Compliance

- ◆ PQ Standards, Codes & Practices
- ◆ PQ Testing and Measurements
- ◆ IEEE and IEC Standard

*All papers will be published on
www.pqsynergy.com.*

Venue Perspective

Bangkok is always among the world's top tourist destinations. The city is a true tourist paradise, proved by the growing number of travelers coming each year. There are a great variety of tourist places in Bangkok, mostly historical attractions and temples with elaborate architecture and art. Famous temples are Wat Phra Kaew, Wat Pho, Wat Arun, Wat Phu Khao Thong, Wat Ratchanadda, Wat Traimit, Wat Benchamabopit, Wat Bowon, and Wat Sutat. There are also palaces, museums, parks, and a big array of shopping places, from luxury malls to flea and street markets like Chatuchak Weekend Market, Sampeng Market, and Pahurat Textile Market. Bangkok nightlife is another highlight that has attracted many of tourists from all over the world.
